Amman, Jordan

SOFTWARE ENGINEER

Results-driven Full Stack Developer with over 2 years of experience in developing and deploying web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Adept in REST API development, database modeling, and creating responsive front-end interfaces with Bootstrap. Strong communication skills in English, and team-oriented.

EXPERIENCE

Self-employed —Pet shop website   **March 2025 - May 2025**
Freelance Web Developer

- Designed and developed a fully functional e-commerce website for a local pet store from scratch
- Built the frontend using React.js
- Created a secure and scalable backend using Node js and MongoDB
- Implemented features such as product listing, shopping cart, image uploads, and a professional admin dashboard
- Integrated user authentication and ensured mobile responsiveness across devices

Loqmet Bait —Gradation project   **Oct 2024 - Feb 2025**
Backend & Full Stack Developer

- Led development of a multi-role platform connecting kitchen owners, customers, and delivery drivers using React, Node.js, and MongoDB Atlas.
- Developed RESTful APIs for user authentication, media upload, and data operations.
- Implemented secure login/registration with JWT, email verification, and encrypted user data.
- Managed data modeling using Mongoose, supporting complex relationships and multi-category items.
- Designed a responsive UI using Bootstrap and integrated front-end components with backend APIs.
- Conducted end-to-end testing using Postman and browser developer tools.
- Coordinated team tasks and timelines as Project Manager.

Amazon frontEnd website   **July 2024 - Aug 2024**
Frontend development

- Developed and optimized responsive web layouts using HTML, CSS, and JavaScript

---
